RE: Your note for comments re D/Personnel memo
for DCI dated 5 Oct 73, subj: Memorial Plaque

The word "plaque" is incorrect, since the present concept is to carve the lettering of the inscription in the same wall of the main entrance lobby that the Dulles memorial is on.

The sculptor has prepared several sketches which should be available to the Management Committee at the time the subject is discussed.

I will be glad to supply whatever further comment you would like to have, but I think it's pretty self-explanatory.
